

AIR HYGIENE

**"THE STARTUP AND COMMISSIONING OF A NEW POWER PLANT CAN
BE VERY CHALLENGING. AIR HYGIENE GOES THE EXTRA MILE TO
MEET OUR NEEDS ON EVERY PROJECT."**

Phil Wert,
Mitsubishi Hitachi Power
Systems Americas, Inc.

Response within 24 hours with quote or follow-up questions.

Sales Team prepares and submits testing quote. **One-page simple price sheet** with detailed, turnkey rates for defined scope. Quotes sent by email as a .pdf document.

Key to quote is the supporting contract information. Insurance, terms, and conditions are each carefully evaluated and specified to meet customer needs with **focus on flexibility**.

Client notifies team of award. Immediate response of appreciation and action to start key steps for **proactive preparation** to ensure client receives complete service.

Get **client-requested date** on the test schedule—our TOP priority. Director of Operations sets the schedule and provides a single point of contact.

Simultaneously, our Protocol Team prepares your custom test plan, detailing the scope of work and methodology with strategy to provide **straightforward details with smart flexibility**, addressing the testing needs from the client/agency.

Team arrives to site, **on schedule and organized**. You meet a hard-working Test Team with great service-oriented attitude, ready to perform quality testing efficiently with a friendly smile and direct communication.

AHI **report valet** provides fast-turnaround, high-quality reports built by experienced testers, reviewed by a project manager, and draft delivered to client in **less than 10 days, on time, every time**.

Air Hygiene's CFO is involved with every invoice. Your invoice is prepared to match Purchase Order/Contract documents prepared at beginning of project and communicated as needed during project to ensure **no surprises to client**.

Our Customer Service Team follows up with your projects to ensure your satisfaction and gain feedback for **continuous improvement as we pursue perfection**.

AIR HYGIENE

“Air Hygiene has continuously provided high-quality services while being flexible and supportive. No one compares to Air Hygiene.”

Abby Lawrence,
Work Health & Safety
Energy Transfer

WHY
We Are:

2ND 2 NONE

Air Hygiene’s core philosophy of “Second-to-None (2-2-0)” demands extra-mile customer service anchored on dignified character and family-oriented principles to deliver unmatched quality stack testing, worth paying for every time. We utilize revolutionary technology and AIR HYGIENE UNIVERSITY to create the best-educated workforce to define the future of stack testing.

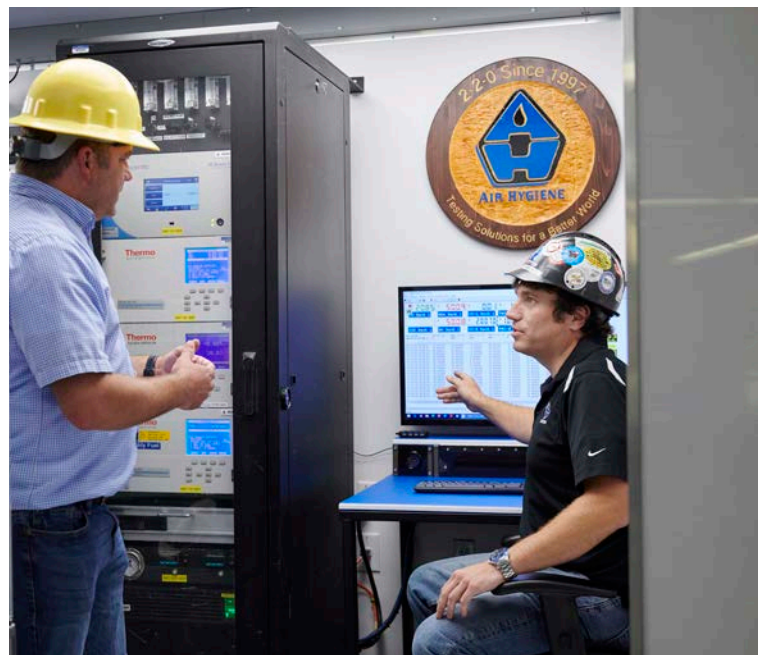

WHAT
Our Customers Are Saying:

"Air Hygiene can be counted on to work hard and get the job done right, no matter the time of day, weather, or other inconveniences."

Dennis DeLaby & Jordan Haywood,
Environmental Engineering
Siemens Energy

“Air Hygiene has executed numerous complicated testing programs for me, and their staff meets our fluid schedules’ needs with safe, quality testing”

Paul Lee, P.E.,
Air Quality Group
Black & Veatch

HOW

Air Hygiene Goes About Business:

- When you need help with **stack emission testing work**, RATA Testing, Compliance/Performance Testing, etc., we provide you a complete **“turnkey quote”** that includes everything you **need** for the job.
- You’ll find we have an **extensive Emission Testing Résumé** in all types of industries.
- We provide a current **“report valet” standalone report staff**, so our reports do not depend upon a project manager having down time to complete a report. Instead, AHl has built a staff to handle reports quickly, promptly, and without bias. Data is data, and reports reflect the data collected.
- **AIR HYGIENE is 100% MOBILE ... We are where your work is.**
